

NEBLETT & GRANT, Local Editors.

FRIDAY, SEPTEMBER 3, 1888.

CLARKSVILLE, TENN.

Bank of America.

Considerable excitement was produced here, a day or two ago, by the news that the Southern Bank of Tennessee, at Memphis, had suspended payment, and that the notes of the Bank of America had, in consequence thereof, been thrown out by other banks at Memphis and Nashville. The Southern Bank was the agent, at Memphis, to redeem the notes of the Bank of America, and the suspension, of course, involved a temporary discredit of the notes of the Bank of America. The Bank of America had no intimation, whatever, we learn, of any design of the Southern Bank to suspend, until they got news that they had actually suspended.

The Bank of America is still going on, as usual, and her notes are redeemed at Nashville by the Traders Bank, and the Merchants Bank. As to the final issue of this excitement, it all depends upon the action of the note-holders, and depositors, of the Bank of America. There is no bank in the State that can stand a simultaneous run on it by both note-holders and depositors. Take the very strongest Bank we have, and, if every one who holds a note on it, or has a deposit with it, runs on it, at once, she can begin to pay out; but give her time to collect what is due to her, and then she can pay all. So it is with the Bank of America; if every one who has claims against her runs on her for it, she cannot stand it, nor can the Planters, nor the Union, nor any other Bank; but if note-holders, and depositors, will be reasonable, and act as if they had heard no bad news, she will pay out in full.

Many a farmer, or merchant, who owns property to the amount of fifty thousand dollars, may have notes out for five thousand, which if he is pushed on without notice, he cannot pay, and so with Banks. They invest their money in bills and notes, reserving a reasonable amount of cash, but if pushed for all they own, they must wait till they collect their notes and bills. So it is with the Bank of America. So far as her operations are concerned her officers say they can pay every dollar they have put out.

We would advise all note-holders and depositors, to remain quiet, and we think all will be right. The Bank if she has half a chance will pay out, but if crowded at once for all she owes no Bank can stand it.

Would it not be well for our young men to organize some means by which the unemployed hours at night could be turned to profit? Would not a debating society with a department for essays have a tendency to set them to reading and thinking? We have a large number of young men here, and the material for such a society can be easily culled from that number. Or if they like it better, they can get up among themselves a circulating library, beginning with a beginning and gradually enlarging as they read and acquire means. We think at a very slight cost they could do this, and by having one quizzing night each month, could stimulate each other to exertion and acquirement. Do not read novels so much, but give books and thoughts some of the time now devoted to gossip, and as what is sauce for the gander is sauce for the goose—our young ladies might also profit by the above hints.

Somebody has said "time is so precious it is given to you only once at a time." This being so let our young folks and old make the most and best use of it.

LINWOOD LANDING.—Our friend, Jas. M. Radford, has leased Linwood Landing, and is now prepared to carry on the Storing, Forwarding and Commission business, in all its branches. He will also keep a good assortment of lumber and a large stock of groceries for sale. Mr. Radford is an experienced farmer, and a real energetic business man, and we doubt not, that he will give his entire attention to the business of his customers.—Linwood is one of the prettiest landings on Cumberland River, and is accessible to a large tobacco and wheat growing section of the country.—We bespeak for Linwood a liberal share of public patronage.

If you want to see a rich assortment of jewelry, call at Cook's, and look, especially, at his fine lot of American-made watches for gentlemen, and his tasty selection of watches for ladies. His stock is very large, and being a man of taste, as well as of skill and experience, you will find every thing you want and of the very best.

We wish some enterprising man would contract at some convenient point in Clarksville, a good bathing establishment. Ours is a very clean population, but it would do no harm to wash them twice a week anyhow.

BUILDING AND LOAN ASSOCIATION.—Initiatory steps will be taken to-night, to organize one of these Associations. Every body is requested to attend. The meeting will take place upstairs in the Court House, at early candle-lighting. Go and see.

DAILY STAGE LINE.—See the advertisement of Allenworth, Slaughter & Co. They have made arrangements and are now running a daily line of Stages to Nashville, and can accommodate the travelling public in as comfortable a manner as could be desired. Our friend Jack Allenworth lives here and will be certain to keep this end of the line all right. While his partner, Mr. Slaughter, will no doubt attend to the Nashville end.

PICKERING & ELY, are now receiving and opening one of the largest and most tastefully selected stock of Dry Goods, ever brought to this market. Their assortment of cassimere, for pants, is very rare, and their selections of dress goods, for the ladies, cannot be surpassed anywhere. If you want fine goods at low figures, give them a call.

FINE FUTLES.—Mr. E. L. Williams, of Chestnut county, presented us, a few days ago, with a specimen of some of the finest apples we have seen in this section. They are the full apple and are of a very fine quality and size. We are glad to see that our farmers are paying so much attention to fruit growing.

We are of the opinion, if a young man wanted to be happy, he should get married and go to Court and select his furniture. We are inclined to think that our John would say (privately) to a friend, "I am a married man, and I am happy."

We hear that all the Bridge Bonds have been sold at from \$2 to \$3 cents. Lucky purchasers.

SUPPER TO THE MECHANICS, AT "CLARKSVILLE FEMALE ACADEMY."

A supper was given to the Mechanics who built the Female Academy, by Mrs. Cobb and Hamilton, on last Saturday evening at 8 o'clock. At the appointed time, some fifty-five of the "house and stoves" assembled in the Preparatory Department, where everything was in order for their accommodation. After spending a half hour in agreeable chit chat, the crowd was invited to supper, which was set in the large and conveniently arranged dining-room, capable of seating one hundred persons. The supper was all that could be desired, choice viands of every description, prepared in the best style of the culinary art, besides confections of various kinds. The supper over, the company repaired to the Preparatory room, when, on motion, Mr. S. Kellogg was called to the Chair, and J. A. Grant appointed Secretary.

The following resolutions were then read and unanimously adopted:

Resolved, That we hail with pleasure, as an epoch in the history of the mechanics of Clarksville, this demonstration of the fact, that it does not take years to build a house.

Resolved, That our best wishes and hearty cooperation shall be extended to the "Clarksville Female Academy," that a school may be established worthy of the house and its whole-souled President.

Resolved, That a vote of thanks be, and is hereby tendered to Mrs. Cobb and Hamilton, for the hospitalities extended to us on this occasion.

Dr. Hamilton was then called for, and made a short but beautiful and appropriate address, endearing him, if possible, more closely to those present.

Next came Dr. Cobb, who paid the workmen a compliment for the energy displayed in pushing forward the work, &c.

After which the crowd assembled in front of the building, and were agreeably entertained by some delightful singing, the vocalist, Mr. Hamilton, accompanied on the flute by Dr. Hamilton—when the crowd dispersed highly gratified with the evening's entertainment.

In this connection we will state that everything is in readiness, and the first session will commence on Monday, the 6th inst., as was intended. May success crown every effort for the advancement of this praiseworthy Institution, which is the just pride of our citizens.

In view of the fact that ice has become a necessity here and that our ice crop is precarious, would it not be well for some of our enterprising dealers to construct now an immense ice house, and import each winter about 250 tons of northern ice? By proper drainage and a double roof, one above the other—say five feet—and abundance of ventilation between the two roofs and beneath the lower one, it would be perfectly feasible to keep an abundance of ice with very little waste. At one cent a pound, every body would buy, rather than put up with this frequently muddy ice, and thus the dealer could sell his entire importation and make a good profit. Who will do it?

The inducements for population and manufacturers to settle in Clarksville are, an abundance of iron and timber in first hands—a prospect that coal will be brought here by railroad in a year or so—a constant supply of it here by steamboats—now unsurpassed healthfulness—fine schools—lots of banks—an immense and wealthy section of country which does its trade here, and a demand for all kinds of manufactures. We hope soon to be able to add—and an abundance of dwelling houses at low rates.

Some.—We learn, by a dispatch to W. & J. E. Broadbent, that a barge, loaded with goods for this place, sunk a short distance from Nashville. The barge was being towed down by the steamer Silgo. The following firms are reported to have goods on board: R. D. Danning, R. S. Moore & Co., G. E. Cook, Rice & Moore, Pickering & Ely, W. & J. E. Broadbent, McCulloch & Pittman, Farmer & Trigg, Pollock & Waggoner, and Hart, Coulter & Co. The goods are reported not seriously damaged.

Dr. Johnston offers his beautiful residence in New Providence for sale. The house is a large, conveniently arranged frame dwelling, with a beautifully adorned yard—the lot in all being about three acres. It is one of the prettiest places in that portion of the country.

He also offers some 12 acres, fronting this, with a neat dwelling on it, and 2½ acres of the land is finely timbered. Now is your time to buy a nice home. Those wishing to buy are respectfully requested to call and examine the premises.

MORGAN & CO.—This large Wholesale Dry Goods house, No. 49, Public Square, Nashville, announces that they are now ready to supply the retail trade with everything in their line. This firm is well known to the business public, and are worthy of extensive patronage. See their advertisement.

The only arrival at our wharf during this week, was a flat boat which arrived on Wednesday last from Nashville, loaded with Dry Goods for this place. The merchants say that they bought goods very cheap, and as a matter of course will sell them very low.

ALLISON, ANDERSON & CO.—This Wholesale Dry Goods firm, have filled their large and commodious house with a fine assortment of goods of every description for the Fall and Winter trade. The attention of retail merchants in this section is called to this house. Two of the gentlemen comprising this firm are well known in this city, as reliable business gentlemen. Call on them, at No. 41, Public Square, Nashville, and you will be kindly treated whether you wish to purchase or not.

Dr. Rings' High School, for young ladies will commence on Monday next, the 6th inst.

MEDICAL UNIVERSITY OF NASHVILLE.—The next session of this old established Institution, will commence the 2nd of November next. It has an able and thorough faculty, and enjoys a reputation equal to any similar institution in the country. For information apply to W. K. Bowling, M. D., Dean of the Faculty.

Rice & Moore are in receipt of their very large and well assorted stock of Fall and Winter Goods, and from their many customers that they will sell at the very lowest figure. They invite all to examine their stock and prices.

At a meeting of the Eagle Fire Company No. 2, the following officers were elected:

P. J. Avelitt, Foreman,
Wm. May, 1st Engine Director,
Wm. Averitt, 2nd Engine Director,
Thos. McManus, 1st Hose Director,
Wm. Adwell, Assistant,
J. S. Lay, 1st Pipe Director,
J. Herrington, Assistant,
C. M. Hiter, Treasurer,
R. D. McCauley, Secretary,
F. S. Beaumont, Assistant Secretary.

D. Kohn, Clothing Merchant, had received his stock of Clothing, and is prepared to furnish complete outfits very cheap, for cash.

W. & J. E. Broadbent, Hart, Coulter & Co., R. S. Moore & Co., and W. Balthrop have received their fall supplies, to which they will direct attention in a few days.

W. H. Bryarly has returned from the Eastern States, and brought with him his very large stock of Fall and Winter Goods, and says he will be enabled to sell them at very cheap rates.

Call at FALL & TURNLEY'S for fine Pocket Cutlery.

B. Flosser & Co., have a good stock of Clothing which they are selling at very low figures.

For the Chronicle.

ANTIOCH SABBATH SCHOOL.

WHEREAS, The death of LEMUEL THOMPSON, being announced to the School, it was unanimously resolved that a committee of three young men of said School, be appointed to draft resolutions expressive of the feelings of the superintendents, teachers and pupils of the School.

The President, thereupon appointed J. De Nettlett, T. H. Lyle, and F. M. Barnes, who reported the Resolutions:

Resolved, That in this dispensation of Providence, we are made to feel the uncertainty of life, and the certainty of death, also, that according to the uniform and established law of Nature, we too, will soon have to commit these tenements of clay, to the keeping of the Tomb.

Resolved, That little Lemuel justly deserved our love and esteem, for he was a good little boy.

Resolved, That we sincerely sympathize with his bereaved father, mother, brother and sisters.

Resolved, That the pupils of this School wear the usual badge of mourning for four successive Sabbaths.

Resolved, That a copy of these resolutions be presented to the family of our departed friend, and a copy be sent to the Clarksville Chronicle for publication.

Antioch, Aug. 29, 1888.

MARRIED.

On the 2nd inst., in Russellville, Ky., by the Rev. Mr. McGee, Mr. N. L. WHITFIELD, of this county, to Miss ANNIE MART, of Russellville, Ky.

For the Chronicle.

OBITUARY.

Died, August 27th, at the residence of his father, W. R. Thompson, after a brief but painful illness, LEMUEL, aged 9 years, 6 months and 20 days.

Little LEMUEL was one of the nicest and best little boys we have ever known. Obedient to his Parents, affectionate to his brother and sisters—kind and obliging to his playmates—assiduous at School and attentive to the instruction of his Teacher—he was beloved by all who knew him; and never have I known sorrow and regret more universal at the death of one so young.

We would say to his bereaved parents and family, sorrow not as those who have no hope, but rely with unwavering confidence on the promise of Him who said, "suffer little children to come unto me, and forbid them not, for such is the kingdom of Heaven." We say take courage and look forward to a happy reunion with your lost boy, in the realms of ascending bliss, where all the pure in heart shall see God, and vie with Angels, in shouting his praises forever and ever, around his resplendent throne.

W.

Home Place, August 30, 1888.
